

Featuring:

DR. RICARDO ARAYA

At the cutting edge of Global Mental Health

Student-led Research Seminar

His expertise is in the development and implementation of simple and affordable interventions to treat mental disorders, particularly in resource-poor settings. He previously developed a model of care to treat common mental disorders, which has been adapted and used in several middle and low-income countries. He has been a leading role in significant initiatives to increase mental research capacity in Latin America and Africa.

Chair: MARÍA JOSÉ ALPUCHE

Discussant: MARÍA JOSÉ ALPUCHE & KAREN DU PONT
